Sorry Rolf,

I have spoken with Det Sgt Smith who indicated that everything was done in relation to your incident. I did mention to him that I would look into it myself. The only problem is that I need to firstly find the paperwork and then exam the same.

I will still give the commitment to do this. The problem was the day I spoke with you I thought I could just make some inquiries and the answers would be there. Unfortunately that is not the case. Please bare with me for a little longer. I will try and email or phone you next week. Again sorry for not getting back to you eariler.

Kind regards,
